WHO WE ARE

THEY TRUST US

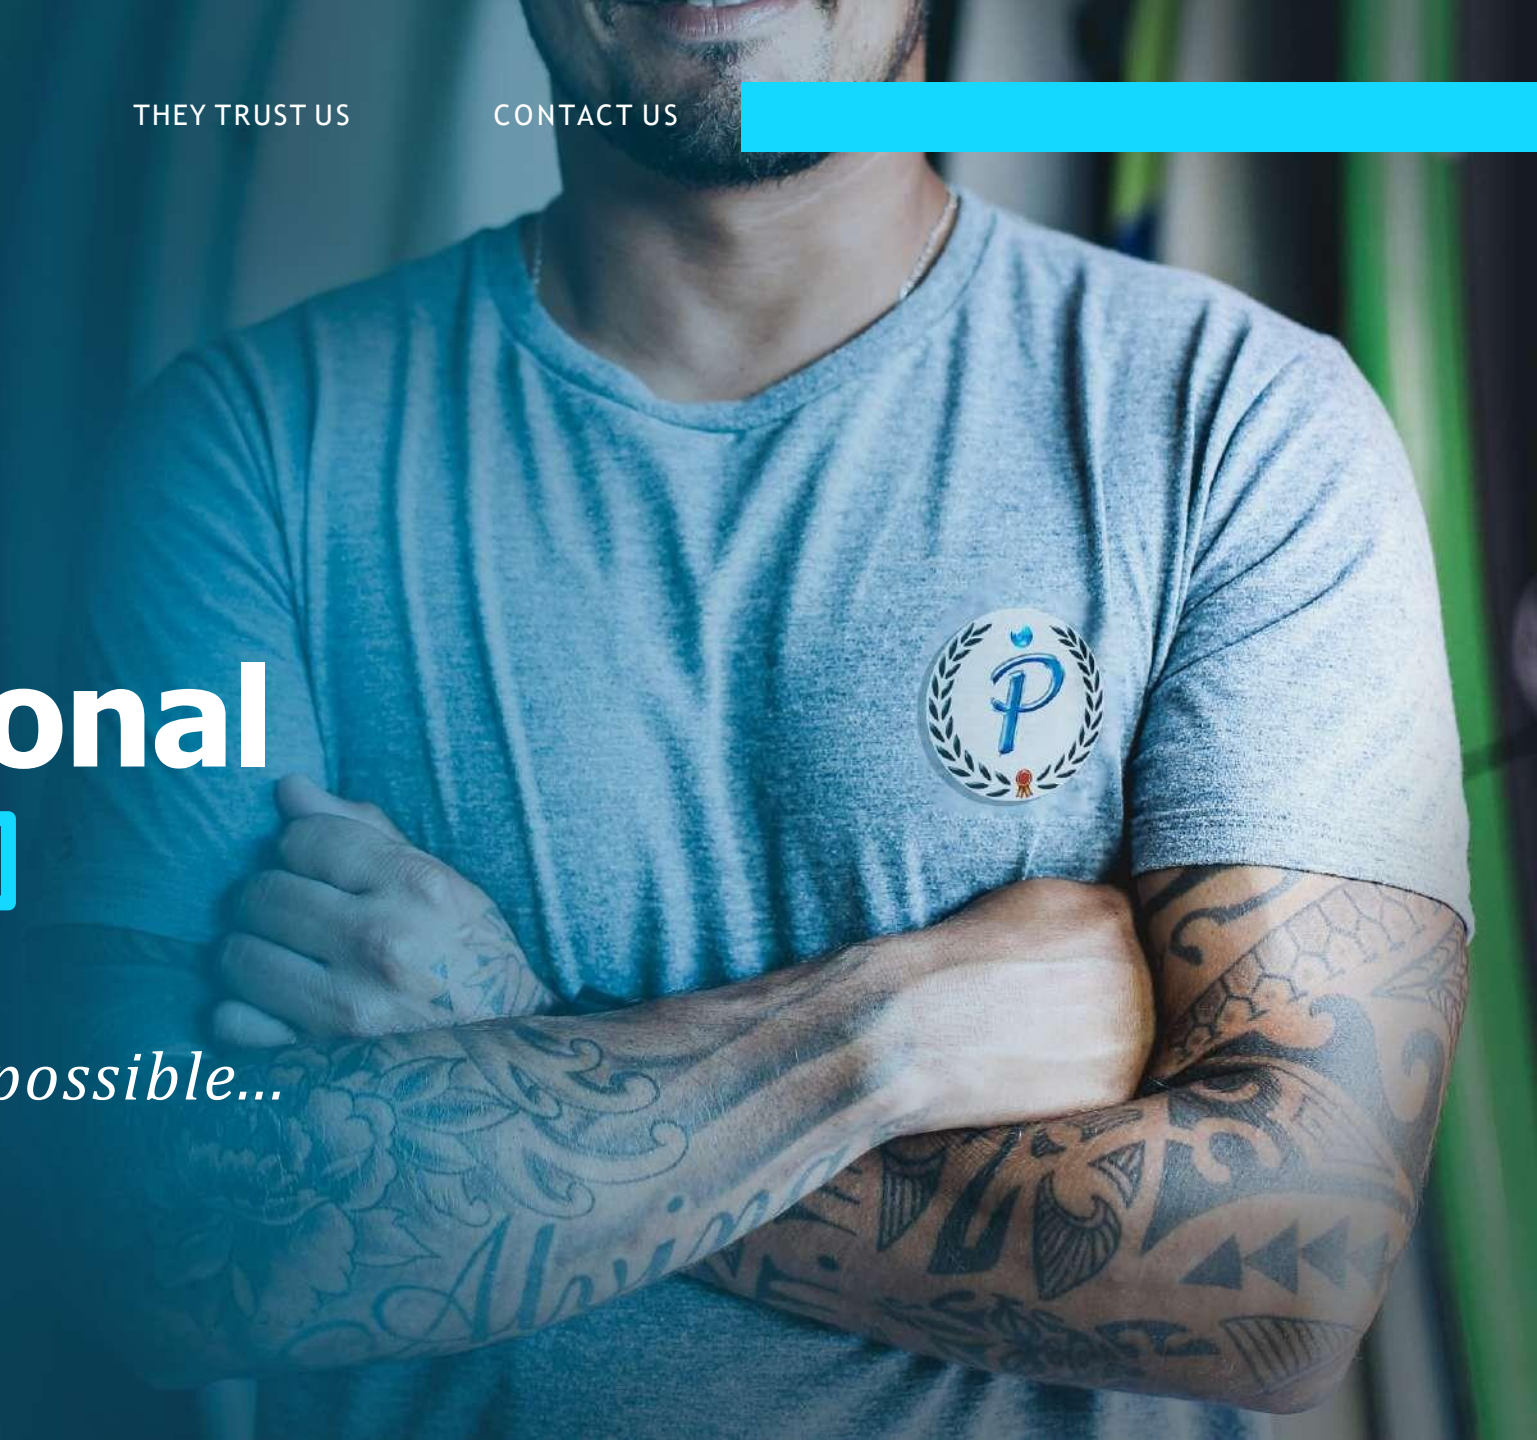

CONTACT US

For over two decades, we have been providing the highest quality products for your Tattoo and Piercing needs.

Our in-depth knowledge of the history of body piercing jewellery and our experience in crafting and manufacturing products out of a variety of suitable materials, including safe medical grade plastic, have made us the proud owner and creator of the BioFlex® brand.

At Poli International, we specialize in developing innovative manufacturing techniques to tackle technical impossibilities.

2020 - "Scratch-Proof Clips": Avoid Scratching Jewelry and Increase Hygiene!

2021 - New Comfortable Grips for Tattooists!

2022 - Exclusive Bi-Material Tattoo Machine Cables with a Twist!

2023 - Revolutionizing Tattooing: The Eco-Friendly POLINK Ink Delivery System

The “POLINK System” is not only a revolutionary ink delivery system that simplifies the process of tattooing and offers benefits to the tattoo community, it is the long awaited accomplishment that took 2 years to develop!

Compatible with most types of cartridge needles, established tattoo machine brands, and all tattoo ink brands, it is a universal system that saves time, reduces disruption while tattooing, and reduces ink and plastic waste, making it environmentally friendly.

The POLINK System is a major innovation that offers comfort, efficiency, and reliability to tattoo artists and suppliers, helping to evolve the tattoo industry.
